INTRODUCTION	8
SECTION I. PHILOSOPHY IN THE HISTORICAL DYNAMICS OF CULTURE	11
Module 1. Philosophy as a socio-cultural phenomenon	13
Theme 1.1. Philosophy and worldview.....	13
Theme 1.2. Subject of philosophy and structure of philosophical knowledge.....	24
Theme 1.3. Problem of method in philosophy	29
Theme 1.4. Philosophy and the basic forms of culture: religion, art, science	30
Module 2. Main stages in the development of philosophical thought	36
Theme 2.1. Philosophy and myth. Formation of philosophy in the cultures of ancient civilisations	37
2.1.1. Cultural and worldview-related foundations and schools of ancient Indian philosophy	37
2.1.2. Main philosophical schools of Ancient China: Confucianism, Taoism, Legism	44
2.1.3. The nature of Ancient Greek civilization and peculiarities of ancient philosophical tradition	52
Theme 2.2. Philosophy and religion. Status and functions of philosophy in medieval European culture. The renaissance philosophy	68
2.2.1. Christian worldview foundations of medieval philosophy.....	69
2.2.2. Periodization of medieval philosophy. Evolution of the balance of faith and reason in the philosophical tradition of the middle ages (Tertullian, Augustine, Abelard)	70
2.2.3. Scholasticism and its systematization in T. Aquinas' philosophy. Problem of the universals	73

2.2.4. Humanism and sociopolitical ideals of the Renaissance philosophy.....	75
Theme 2.3. Philosophy and science. The problem of self-determination of philosophy in European culture of the Modern Era	79
2.3.1. Development of natural sciences and the problem of method in the philosophy of the Modern Era.....	80
2.3.2. Basic gnoseological programs in the philosophy of the 16 th –17 th centuries: empiricism and rationalism	82
2.3.3. Socio-historical and worldview-related basics of philosophical thought of the Enlightenment	84
2.3.4. Classical German philosophy and its role in the development of european philosophical tradition.....	85
Theme 2.4. Formation and basic development strategies of postclassical philosophy.....	93
2.4.1. Criticism of the classical philosophers. Irrationalization of philosophy.....	93
2.4.2. Marxist philosophy	96
2.4.3. Program of overcoming metaphysics and main historical forms of positivist philosophy.....	101
2.4.4. Religious philosophy in the context of modern European culture.....	108
2.4.5. Major development strategies of postclassical Western philosophy in the 20 th century	110
2.4.6. Modern western philosophy at the turn of the 21 st century.....	116
Theme 2.5. Philosophy and national consciousness. Philosophical thought in Belarus. Russian philosophy.....	122
2.5.1. Philosophy as a form of national cultural tradition. Assimilation of spiritual experience of the Western European and Russian traditions in the culture of Belarus	123
2.5.2. Philosophical thought in belarus: basic stages of development, problems and representatives	125
2.5.3. Basic development trends and typological characteristics of Russian philosophy.....	128

SECTION 2. MAJOR PROBLEMS OF CONTEMPORARY PHILOSOPHY	137
Module 3. Philosophy of being	139
Theme 3.1. Metaphysics and ontology.....	139
3.1.1. Concept of metaphysics in classical and postclassical philosophy	139
3.1.2. Ontology as a philosophical doctrine about being and its fundamental categories	141
3.1.3. Material being and ideal being. Category of matter and its gnoseological significance. Main structural levels of organization of material existence	145
3.1.4. Dynamic organization of being. Dialectics of being and thinking. Principles, laws and categories of dialectics. Principle of global evolutionism. Dialectics and synergy	148
Theme 3.2. Philosophy of nature	158
3.2.1. Concept of nature. Evolution in the understanding of nature in philosophy and science.....	159
3.2.2. Nature as a human habitat. Natural and artificial habitats.....	160
3.2.3. Concepts of the biosphere and noosphere. Vernadsky's biogeochemical concept of the biosphere	161
3.2.4. Co-evolutional imperative and ecological values of modern civilization. Global problems in the system of "man-society-nature" and their possible solutions.....	162
Module 4. Philosophical anthropology	166
Theme 4.1. Problem of man in philosophy and science.....	166
4.1.1. Man as an object of scientific and philosophical analysis. Basic strategies of comprehension of the essence of human nature	166
4.1.2. Problem of anthropogenesis in philosophy and science. Modern concepts of anthropogenesis: creationistic, evolutionary, concept of play, et alia.	173
4.1.3. Man as a personality. Sociocultural sides of human existence.....	175

Theme 4.2. Human consciousness as the subject of philosophical analysis.....	183
4.2.1. Problem of consciousness and main traditions of its analysis in classical and non-classical philosophy.....	184
4.2.2. Multidimensionality and systemic nature of consciousness. Problem of genesis of consciousness. Consciousness and reflection. Consciousness and the brain. Essence of the psychophysiological problem. Consciousness and psychics.....	187
4.2.3. Thinking and language. Prospects of creation of artificial intelligence.....	192
4.2.4. Structure of consciousness. Components and levels of consciousness. Consciousness and self-consciousness. Individual and social consciousness	193
Module 5. Theory of cognition and philosophy of science	197
Theme 5.1. Cognition as a value of culture and a subject of philosophical analysis.....	197
5.1.1. Specifics of cognitive relation of the person to the world	198
5.1.2. Classical theory of cognition	200
5.1.3. Problem of the subject and object of cognition.....	201
5.1.4. Structure and process of cognition	202
5.1.5. Cognition as creativity.....	205
5.1.6. Problem of truth in cognition.....	205
Theme 5.2. Science, its cognitive and socio-cultural status	209
5.2.1. Concept of science	209
5.2.2. Historical development of science	211
5.2.3. Specifics, structure and dynamics of scientific knowledge.....	214
5.2.4. Forms of development of scientific knowledge	217
5.2.5. Science in the system of social values.....	218
Module 6. Social philosophy	223
Theme 6.1. Nature of social reality and the main strategy of its study in philosophy	223

6.1.1. Place of social philosophy in the system of philosophical knowledge and social-humanitarian disciplines	223
6.1.2. Main strategies of the study of social reality in modern philosophy.....	227
6.1.3. Society as a system. Social structure of society	231
Theme 6.2. Basic problems of political philosophy.....	235
6.2.1. Phenomenon of power in the life of society. Power, politics and law.....	235
6.2.2. State as the essential component of the political organization of society.....	241
Theme 6.3. Philosophical problems of social dynamics.....	247
6.3.1. Formation, subject and structure of the philosophy of history	248
6.3.2. Formational and civilizational paradigms in the philosophy of history	252
6.3.3. Globalization as the subject of social and philosophical analysis	257
Theme 6.4. Philosophy of culture.....	260
6.4.1. Concept of culture. Basic paradigms of philosophical analysis of culture	261
6.4.2. Morality, art and religion.....	265
6.4.3. Philosophy and value priorities in the culture of the 21 st century. Conclusion.....	270
Control module. Final assessment of mastering the philosophy course.....	276
Bibliography	280
Appendix	282
